

How we stack up!

Payforit

txtNation enables merchants to use **Payforit, Version 4.**

Payforit converts multiple times better than credit cards. Our eye-popping conversion rates really aren't all that surprising when you consider the user experience.

Using Payforit, all customers have to do enter in their mobile number! With credit cards, you have to ask the card number, the security code, the expiration date and the billing address. No registration.

Why choose us for Payforit? Version 4.0
